

Ranking:

1. Edupoint
2. Skyward
3. Powerschool
4. EduWave
5. PCR

Initial Response, Vendor: PCR

	Points possible	Notes	Points Awarded
Complete response. All submission requirements met.	5	All RFP elements, spoke to requirements	5
Assigned staff experience meets expectations/needs.	5	Small systems (950 is largest), none in Utah. Small team, some areas of org chart are not delineated	2
Financial stability and history providing product is apparent.	5	Never bought/sold nor filed for bankruptcy per report since 1989.	3
References are positive, speak to product deliverables and are comparable to our contextualized needs.	10	No specificity from references included, only names, small systems and no districts	1
Implementation plan includes service, training, and ongoing support for quality use.	10	Good, detailed implementation schedule, support looked weak. Hard to read, not a great reporting--which is disconcerting.	7
Product matches current needs and minimum requirements (attached) for use and integration with other products.	10	Cloud service: Open API dependent (backend is MS) Addressing that "can" integrate, not experience with integrating with Canvas, USBE, behavior system, no specificity.	4
		<b>TOTAL:</b>	<b>22</b>

Initial Response, Vendor: ITG America, EduWave

	Points possible	Notes	Points Awarded
Complete response. All submission requirements met.	5	Met submission requirements. Spoke to minimal requirements. Some just say "comply".	5
Assigned staff experience meets expectations/needs.	5	Did not see planned support staff or structure	2
Financial stability and history providing product is apparent.	5	28 years, 230 employees, limited US experience	4
References are positive, speak to product deliverables and are comparable to our contextualized needs.	10	Multiple international, some national, noted ongoing support, scale demonstrated for mass and implementation which could limit ease of customization without cost addition Older references, limited US experience,	4
Implementation plan includes service, training, and ongoing support for quality use.	10	PMO for deployment and support--nice and clear and good infographic, solid and detailed implementation plan. Customization not represent. Question remain.	6
Product matches current needs and minimum requirements (attached) for use and integration with other products.	10	API and web services... Not clear on weighted GPA/transcript State compliance without specificity on some items. Multiple customization options noted but not built in even of some of our minimal requirements. Assessment not fully integrated Multilingual experience and options Reporting not detailed nor with each educational element Query capability.	6
		<b>TOTAL:</b>	<b>27</b>

Initial Response, Vendor: Edupoint

	Points possible	Notes	Points Awarded
Complete response. All submission requirements met.	5		5
Assigned staff experience meets expectations/needs.	5	Appropriate expectations met	5
Financial stability and history providing product is apparent.	5	Good customer satisfaction	5
References are positive, speak to product deliverables and are comparable to our contextualized needs.	10	Large school district with diverse needs, experience	10
Implementation plan includes service, training, and ongoing support for quality use.	10	Very ambitious implementation timeline with system/district responsibilities and agreements Issues management support Train the trainer model	10
Product matches current needs and minimum requirements (attached) for use and integration with other products.	10	Google classroom integration LDAP authentication, rostering, API meet requirements Gradebook looks good (standards-based grading) Not yet experienced with UTREX Cloud or server based options RTI module with integrations an option Assessment add-on would be an option Automated reporting options Mobile portals for parent view and student views Fee management Value management Optional modules need cost analysis but allow for full integration of ELL, IEP, assessment, etc. (could easily transfer CIA)	10

Initial Response, Vendor: Skyward

	Points possible	Notes	Points Awarded
Complete response. All submission requirements met.	5		5
Assigned staff experience meets expectations/needs.	5	Sufficient but incident management minimal for ongoing	4
Financial stability and history providing product is apparent.	5	Since 1980, grown in Utah	5
References are positive, speak to product deliverables and are comparable to our contextualized needs.	10	Deep footprint in Utah with comparable districts	10
Implementation plan includes service, training, and ongoing support for quality use.	10	Customers support does not speak to or how/if can be customized	9
Product matches current needs and minimum requirements (attached) for use and integration with other products.	10	Strongest Canvas integration of current Utah systems Minimal detail and no screenshots but seems to be basics only Includes lesson planning API is solid for integrating to other systems but do less of their options Unsure if meets data requirements, vague, terminology concerns... Speak to affordability over product. Data-at-rest is additional cost Cloud backup spelled out.	8
		<b>TOTAL:</b>	<b>41</b>

Initial Response, Vendor: Powerschool

	Points possible	Notes	Points Awarded
Complete response. All submission requirements met.	5		5
Assigned staff experience meets expectations/needs.	5	Complete team, does not include educator or counselor specific	4
Financial stability and history providing product is apparent.	5	Ongoing in Utah	5
References are positive, speak to product deliverables and are comparable to our contextualized needs.	10	Experience in Utah is significant, Experience with Ogden	10
Implementation plan includes service, training, and ongoing support for quality use.	10	One page, not clear	7
Product matches current needs and minimum requirements (attached) for use and integration with other products.	10	Not single integrated database even for included Dynamic and customizable gradebook (standards-based or traditional) Mobile platform is strong Oracle, cloud, solid Utrex API and one-roster look good 18 languages Merged with TalentEd and alio Apple Watch compatible Value-added with PBIS and data monitoring, unified classroom Payment management system to replace Kev	9
