NOTICE OF INTENT TO AWARD A CONTRACT WITHOUT ENGAGING IN A STANDARD PROCUREMENT PROCESS

The Purchasing Division of Support Services is publishing this notice pursuant to the Utah Procurement Code. The Conducting Procurement Unit submitted this form to Purchasing claiming that it intends to award a contract without competition if it is determined by Purchasing, in writing, that:

- there is only one source for the procurement item;
- transitional costs are a significant consideration in selecting a procurement item; or
- the award of a contract is under circumstances, described in rules adopted by the applicable rulemaking authority, that make awarding the contract through a standard procurement process impractical and not in the best interest of the procurement unit.

In the subsequent pages the Conducting Procurement Unit has identified its justification for wanting to award a contract without engaging in standard procurement processes.

Determination of Other Interested Vendors

The intent of this notice is to determine if there are any other interested and qualified vendors that meet the specifications of this notice. Any such vendors must submit the following information:

- The name of the contesting person; and
- A detailed explanation of the challenge, including documentation showing that there are other competing sources for the procurement item.

In addition, a vendor should include:

- Documentation that your firm can provide a comparable or better procurement item that meets or exceeds the specifications;
- Documentation that your firm can also provide the same proprietary procurement item or an equivalent procurement item; and
- If transitional costs are identified as the justification for this notice, submit a cost comparison of the identified transitional costs with your firm’s anticipated transitional costs.

Regardless of any prior communications with Purchasing or the School District, all vendors interested in responding to this notice must submit a response to this posting containing complete responses to all of the information requested above.

DO NOT CONTACT THE CONDUCTING PROCUREMENT UNIT. Any questions regarding this notice, including obtaining additional information, can be obtained through Purchasing during the publication period. No action is required if you agree with this Notice.

If, after the public notice period has passed, Purchasing determines that there are other interested and qualified vendors that meet the specifications of this notice, Purchasing will not award a contract pursuant to this notice.

If, after the public notice period has passed, no valid challenges have been received, then Purchasing may award a contract to the identified vendor without competition.
Please read the entire form very carefully before responding to this notice.

It is anticipated that this procurement will result in:

**CHECK THE BOX THAT IDENTIFIES WHY A CONTRACT SHOULD BE AWARDED WITHOUT ENGAGING IN A STANDARD PROCUREMENT PROCESS:**

- [ ] Transitional costs are a significant consideration in selecting a procurement item and the results of a cost-benefit analysis demonstrate that transitional costs are unreasonable or cost-prohibitive, and that the award of a contract without engaging in a standard procurement process is in the best interest of the procurement unit. Complete section B

- [ ] The award of a contract is under circumstances, described in rules adopted by the applicable rulemaking authority, that make awarding the contract through a standard procurement process impractical and not in the best interest of the procurement unit. Complete section C

**SECTION A: ONLY ONE SOURCE**

1. What is unique about this procurement item to justify an award of contract without engaging in a standard procurement process? (Explain in detail why the service or product is only available from a single supplier.)

   Paper Education Company Inc. is the sole source for Paper Education 24/7 on demand live tutoring. Paper Education Company is unique in that:
- Students receive unlimited, 24/7 on demand live help from Paper tutors—typically within 15 seconds of requesting it. Tutors deliver homework help, writing feedback and study support. Students are intelligently paired with specialized tutors based on the topic area of inquiry.
- Because of the technology and operations developed by Paper, the company is uniquely able to offer its services at a predictable fixed cost to school districts. This removes the variable costs of typical extra help approaches, making for simplified budgeting and management.
- Capacity planning of staff is a major challenge to cost-effectively providing live extra help. Paper solves the challenge using approaches that are difficult to replicate:
  - Proprietary predictive analytics that use historical usage patterns to model upcoming demand for tutors
  - Years of proprietary usage data collected only by Paper, used to accurately predict future demand
  - Nationwide service for tutoring operations, designed to support thousands of districts across seven time zones from Hawaii to Puerto Rico. This scale of service allows Paper to staff high quality employees for a full day's work versus relying on come-as-they-may contractors to cover an hour or two of spiky demand.
  - A deep bench of specialized tutors. Because Paper serves a large number of districts, the company can staff more specialists—like a chemistry tutor who speaks Mandarin or a European history tutor who is also a writing coach.
- Paper's multilingual tutors support English learners who prefer working in Spanish, Mandarin or French while seeking help with concepts across any academic subject area.
- Paper is the only solution of its kind designed exclusively for licensing by school districts and deployed to the student body at-large.

4. What research have you conducted to ensure the requested procurement item is not available on an existing state cooperative contract?
