

RFP 21-003 Committee Evaluation Process

FINAL RESULTS

Final Evaluation - July 10, 2020

The district's goal in this evaluation process is to provide our schools with a **literacy-focused blended learning solution for our K-3 and elementary mild/moderate special education classrooms** to support learning in both face-to-face and distance learning environments. Moreover, we aim to provide all district administrators, educators, and students with access to achievement data that will inform personalized learning experiences and afford students with opportunities to evaluate their progress toward mastery of their personal literacy goals.

On July 10, 2020, the district selection committee evaluated the Core Solution Requirements, System and Technical Requirements, and Agency Qualifications, Experience, and Support, and Fee Proposals. Based on the results of the evaluation, the committee selected a solution for the Board's consideration.
