

Request for Proposal RFP 22-011

Request for Proposal Criteria and Selection Process for Early Contractor Involvement at Risk Builder for the Ogden School District (OSD or the District)

For the following Project:

Child Nutrition Facility Project

Read Instructions Carefully. Failure to submit the following documents shall be grounds for OSD to deem your proposal as Non-Responsive.

Please ensure you submit the following:

- All Proposals must be submitted electronically through SciQuest in a PDF format. Proposals must be received by May 20th, 2022 by 10:00 AM.
- All Proposals should acknowledge meeting Submittal Requirements
- All Proposals should include one technical proposal information as outlined below, in answering selection questions Section A through D:
- All Proposals should include as a separate document, a price proposal meeting all criteria listed below for Section E
- Additional Requirements as modified during solicitation.

Submittal Requirements

- 1) Review Documents provided by GSBS Architects for the Child Nutrition Center. Approximate size is currently 16,566 sq ft.
- 2) Provide a written technical proposal answering selection questions in the format requested.
- 3) Provide a fee proposal in the worksheet separate from the technical proposal meeting requirements.
- 4) Project Team to be available to interview with the district if requested.

Project Description

Child Nutrition Facility Project

Ogden School District is creating an approximately 16,566 sq. ft. facility to house the District Child Nutrition staff, provide warehousing for supply offsets, provide training for district Food Service staff, and house the Marketstar™ Student Resource Center. The Facility will contain office space, demonstration classrooms with kitchen equipment, custom-designed and built freezer space, dry goods warehouse spaces, a commercial specified refrigerator, and loading dock. The facility will be new construction located on the main district campus at 20th St and Monroe adjacent to the Athletic facility.

Early Contractor Involvement at Risk Builder scope of work

OSD requests Contractor services for early involvement in the design phases for cost estimate, cost advisement, schedule advisement and preparation and procurement of material bid packages. This will also be in preparation for the execution of a Guaranteed Maximum Price to provide at risk general contractor services during construction with a Cost of the Work, plus Contractor's Fee.

Some of these services are delineated as follows:

- a. Participate in the Design Development Review Process and make suggestions for constructability, schedule savings and cost savings. Provide a Cost Estimate, and participate and provide suggestions for cost savings during the Value Engineering session.
- b. Review the documents, recommend, propose and prepare material bid packages for early procurement. Upon owner approval, procure the materials including storage in preparation for the start of the construction.
- c. Review completed CD documents for constructability, needed corrections, and recommend any potential cost savings.
- d. Prepare and provide a Guaranteed Maximum Price (GMP) for the scope of construction work including the negotiated fees, general conditions and appropriate marks and agreed schedule.
- e. Construct Project improvements in accordance with the documents within the schedule.
- f. Complete the scope of work, obtain all needed clearances and approvals from authorities having jurisdiction, and obtain substantial completion.
- g. Complete all corrective work from punch walk and obtain final completion. Provide all required O&M documentation and training for the facility
- h. Provide warranty service including supervision of all trades and scopes of work for the warranty period.

It is anticipated the Selected Contractor will sign an AIA Document A132-2019 for a fee for Pre-Construction Services, a percentage for fee for material bid packages, a fee percentage number for a future GMP, established monthly negotiated general conditions, and with a GMP to be established at time of completion of documents.

Child Nutrition Center Proposed Timeline with Scope of Services

- a. Selection May 20th - May 27th, 2022
 - i. Advertisement May 5th, 2022
 - ii. Documents available to respondents, May 5th, 2022

- iii. Questions must be submitted through SciQuest not later than 12:00 p.m. on May 18, 2022
- iv. Proposals due May 20th, 2022, at 10:00 AM
- b. Award June 2022
- c. Participate in DD review, provide cost estimate and Value Engineering session June-July 2022
- d. Participate in CD design meetings, update estimate as needed July-August 2022
- e. Analyze market conditions and make recommendations for material procurement and bid packages June-July 2022
- f. Guaranteed Maximum Price August 2022
- g. Award Construction start September 2022
- h. Substantial Completion and Punch September 2023
- i. Occupancy October 1, 2023
- j. Warranty end September 30, 2024

Technical Evaluation: Selection questions sections A through D:

- A. Identify at least three comparable projects in which the Contractor Team served as either Construction Manager or General Contractor, or member of a Design-Build team. For each project identified, provide the following:
 - a. Description of the project
 - b. Role of the firm (specify whether Design-Builder, Construction Manager or General Contractor. Identify the percent of work self-performed. Also specify services provided during the design phase, i.e. cost estimating, scheduling, value engineering, etc.)
 - c. Project's original contracted construction cost and final construction cost
 - d. Construction dates, including any extensions or failure to meet schedule
 - e. Project Owner
 - f. Reference information (a current name with telephone number per project)
- B. Provide a concise description of the Contractor Team and their roles proposed for this project, team structure, and include information relevant to this project. Provide resumes with experience and background as it pertains to this project. Please include the following personnel as needed:
 - a. Principal in Charge
 - b. Project Manager(s) and roles
 - c. Other Proposed staff members and roles
 - d. Professional Experience relevant to these Proposed Project Scope
 - e. Any proposed Consultants and roles
- C. Project Approach- Demonstrate your understanding of the Child Nutrition Center, and the significance to Ogden School District and how that understanding will translate to a Project that meets requirements.

- a. Provide specific methodology related to this project for completing the Pre-Construction and Construction work in a timely and quality manner.
 - b. Demonstrate innovative and/or cost-effective potential solutions for issues related in the provided documents in order to meet OSD needs.
 - c. Describe the inputs and coordination needed with the District, Design teams, and BDK.
- D. Cost and Schedule: Provide a schedule and a description on how the Contractor Team will meet or exceed the preliminary timeline. Provide a plan or strategy specific to this proposed project outlining the Team's methodology for assisting in controlling costs during Design and Construction.
- a. Include activities and descriptions of tasks and events needed to meet the scope.
 - b. Describe what processes will be used internally to meet the schedule.
 - c. Describe what inputs and activities are needed from the District, Design Teams, and BDK to meet the schedule.
 - d. Describe the design processes before, during and after working with the District and BDK to incorporate cost savings with such discrete events such as the required value engineering session, estimate reviews, and scope reviews.

Fee Proposal Evaluation: Selection questions section E: (must be submitted as a separate document from the technical proposal).

- E. Price: Provide a document separate from the technical proposal with the following pricing for services for the project. Provide an explanation for the reasoning for each element, and how the proposed fee will provide the required services and potentially save the owner time and money overall.
- a. Lump Sum for Pre-construction services for the project and duration as described above.
 - b. A percentage service fee proposed for material procurement packages.
 - c. A proposed monthly contractor general condition itemized cost for each month of construction for each of the projects to include all general contractor costs, utilities, internet, and an additional trailer for owner/BDK site use located on 1 site. Propose alternate solutions to the above items as part of the list.
 - d. Provide typical insurance modifiers and bond rates.

Additional Requirements

Additional information as required as such and must accompany the proposals at the time of submission in order to be deemed responsive.

RATING SYSTEM ON EVALUATION CRITERIA

Evaluation Criteria: The manner in which the responsive proposal will be evaluated is based on the following point system where 100 points is the maximum points possible to select the proposal that is most advantageous to OSD.

- A. Relevant Experience of Contractor Firm** (10 Points) _____
 - Comparable Projects
 - Reference

- B. Project Team(s) Proposed for this Project** (15 Points) _____
 - Project Team Proposed
 - Relevance to projects

- C. Project Approach** (25 Points) _____
 - Understanding
 - Methodologies
 - Innovative Solutions including systems recommendations
 - Coordination

- D. Cost and Schedule** (20 Points) _____
 - Scheduled activities meeting timelines
 - Internal processes to meet schedules
 - Identified early procurements needed and timeline

- E. Price Component (include in separate document)** (30 Points) _____
 - Provide Pre-Construction Fee Amount
 - Provide Percentage Fee for Procurement Bid packages
 - Provide Required fee percentage to be executed at time of GMP
 - Provide General conditions estimated for each month of Construction
 - Provide breakdown for estimated General Conditions
 - Insurance percentages for General Liability, Bonds

Total Points (100 points possible) _____

=====
