

TIER TWO VISION SCREENING PROCESS

If the student:

- Is an initial referral for special education for a possible learning disability; or
- Is referred for another disability and the team believes vision is a concern;
- Is due for a three year re-evaluation for special education and the IEP team believes there is a vision concern;
- Has failed benchmark on the reading assessment in grades 1-3 * ; or
- The teacher has a concern regarding the student's vision

Then the teacher shall:

- Complete and submit a Symptoms Questionnaire form (SQ).

* if referred due to failing benchmark reading assessment then the referral shall be made by the teacher within 45 days of the assessment administration

*if the parent has a concern regarding the student's vision then the teacher provides the parent a Symptoms Questionnaire form to complete and the school submits to the nurse.

Within 30 days the nurse will review the SQ and determine if the student requires a tier 2 vision screening ?

YES

NO

Nurse will determine and document the course of action and results on SQ and SIS

- Partial screening?
- Full screening?
- Refer to professional?

Nurse will document the decision on the SQ and SIS

NOTE:

- ★ If the student has already been referred by the school to a vision professional in the past school year the Tier 2 vision process does not have to be implemented. Please see Technical Assistance Document for guidance.
- ★ If the student has a special education three year evaluation assessment being conducted the team may consider implementing this process if there are vision concerns. Please see Technical Assistance Document for guidance
